Earthquake Hazard And Risk Assessment Of Padang – Pariaman Destructive Earthquake Of September 30, 2009 <i>Soehaimi, Kamawan, Marjiyono, Sukahar Eka Adi Saputra, Yayan Sopian</i> Page 71	A8
Local Site Response on Simulated Strong Earthquake Motion at LaemChabang Port, Thailand <i>Pulpong Pongvithayapanu and S. Teachavorasinskun</i> Page 87	A9
Multi-Channel Analysis of Surface Wave (MASW) Technique for Generating Site Classification Map of Chiang Mai City, Thailand <i>Thanop Thitimakorn, Surichaipanich, and Phantubongraj</i> Page 95	A10
 <b>B. Tsunami, Flooding and Typhoon</b>	
Verification of FEMA P646 Tsunami Loading with Experimental Results and Field Load Test <i>P. Lukkunaprasit and N. Thanasisathit</i> Page 101	KS
Observed and simulated tsunamis induced by the 2003 Tokachi-oki earthquake (M8.0) <i>Tatsuo Ohmachi, Shusaku Inoue, and Tetsuji Imai</i> Page 109	IS
Analysis of HEC-HMS Hydrological Model for River Flood Risk Modelling <i>I. Abustan, S. Alaghmand, R. Abdullah, and E. Kordi</i> Page 115	IS
Amplified risks: inland flooding of a highly urbanized area <i>G.P. Yumul, Jr., C.B. Dimalanta, D.V. Faustino-Eslava, and N.T. Servando</i> Page 121	B1
Assessment on the affect and damage by typhoon Ketsana and Flashed Flood in provinces of Cambodia <i>Vannada Kij, Boné Phat, and Chhorda Pen</i> Page 125	B2
Estimation of Seismically-induced Potential Tsunami Penetration onto Coastal Terrains <i>EC Cruz</i> Page 131	B3
Quantitative Analysis of Watersheds Shape of Cidurian and Cisaranten and The Implications for Disaster Risk of Flash Flood in Eastern Part of North Bandung <i>Mohamad Galuh Sagara, Edola Riono, R. Adityo, and Brahmantyo</i> Page 139	B4
Impact of Typhoon Ketsana in southern part of Laos <i>Banthasith Vonphuthone, and Vithaya Phonekeo</i> Page 145	B5
Myanmar's Vulnerability to Natural Hazard and Climate Change <i>Khin Kay Khaing</i> Page 151	B6

## C. Landslide

- Monitoring and Early Warning of Slope Instabilities and Deformations by Sensor Fusion in Self-Organized Wireless ad-hoc Sensor Networks KS  
*R. Azzam, C. Arnhardt, and T. M. Fernández-Steeger*  
Page 157
- Promoting a Model of Research-Based Education in Disaster Mitigation KS  
*D. Karnawati, W. Wilopo, G. B. Inderawan, Ign Sudarno, D. H. Barianto and P. Barton*  
Page 165
- Numerical Simulation of Instrumented Experiments on Steady-state Seepage-Induced Landslides IS  
*Mark Albert H. Zarco*  
Page 173
- The mechanism of initiation and motion of the rapid and long runout landslides triggered by the 2008 Wenchuan earthquake IS  
*Fawu Wang, P. Sun, Q. G. Cheng, and H. Fukuako*  
Page 181
- Real-time Monitoring and Early Warning of Landslides at Relocated Wushan Town, the Three Gorge Reservoir, China C1  
*Yueping Yin, Hongde Wang, Youlong Gao, Xiaochun Li*  
Page 189
- Development of a Non-Expert Tool for Site-Specific Evaluation of Landslide Susceptibility C2  
*Daniel C. Peckley, Jr. E. T. Bagtang and M. A. H. Zarco*  
Page 203
- A Geotechnical-Hydrological Approach For Defining Critical Rainfall-Induced Shallow Landslides And Warning System At Large Scale C3  
*Apip, Takara, Yamashiki, Ibrahim, and Sassa*  
Page 209
- Controls of Geological Structures on Cikangkareng Rockslide C4  
*Ign. Sudarno and Salahuddin Husein*  
Page 219
- Development of landslide early warning system by online GPS in Central Java, Indonesia C5  
*Trias Aditya, Suharyanto, D. Karnawati, and T. Faisal Fathani*  
Page 225
- Analysis of Slope Stability in Banyumas Subdistrict with Culman Method C6  
*Indra Permanajati and Gentur Waluyo*  
Page 235
- Development of an Early Warning System for Landslides Using Physical Models and Sensors C7  
*Catane, Zarco, Cordero, Kaimo, and Saturay Jr*  
Page 243
- Application Of Probabilistic Model And GIS On Landslide Susceptibility Assessment In Kayangan Catchment, Java, Indonesia C8  
*Danang Sri Hadmoko, Franck Lavigne, and Junun Sartohadi*  
Page 251

- Prediction Of Ground Movement Due To Block Caving Under Complex Surface Topographic And Irregular Mining Geometry Using GIS C9  
*Agung Setianto*  
 Page 259
- Application of Geographic Information System (GIS) for Mapping Landslide Susceptibility:A Case Study at Timor Tengah Selatan, NTT Province C10  
*Herry Zadrach Kotta, Calvin Rantelobo and Salahuddin Husein*  
 Page 267
- Mineralogical Control On Landslide In Strongly Weathered Volcanic Terrain Case Study Padang Pariaman, West Sumatera C11  
*I.W. Warmad, W. Wilopo, and A. Harijoko*  
 Page 275
- Stability Assessment of Excavated Rock Slope at Jeruklegi Claystone Quarry, Cilacap Regency, Central Java Province, Indonesia C12  
*A. Dok, B. Phat, S. Pramunijoyo and T. F. Fathani*  
 Page 281
- Geological Analysis And Slope Stability For Landslides Mitigation At Guyon Village, Tengklík Subdistrict, Tawangmangu District, Karanganyar Regency, Central Java Province, Indonesia C13  
*Najib and Dwikorita Karnawati*  
 Page 289
- Layer Thickness Analysis of Land Zoning Based Avalanche Area and Resistivity Data Interpretation in Majaksingi District Giri Tengah Magelang Regency, Province of Central Java C14  
*A. Aziz Permana, Alfiady, Ismail Zulmi, Rio Kesumajaya, and Djoko Wintolo*  
 Page 291
- Recognition and measurement of some heavy metals in the sediment samples from Caspian Sea (Behshahr, Sari, Babolsar and Noshahr cities) C15  
*C.Mohammadi zadeh and H.Shalikar*  
 Page 297
- Effects Of Tunnel Excavation On Adjacent Buildings In Ho Chi Minh Urban Area C16  
*T.H. Tin, D. Karnawati, and T.F. Fathani*  
 Page 305
- The Effect Of Compressibility To Design Deep Foundation Of Behavior Earthfill In Jakarta C17  
*S. Rahman, H Pindratno, A. Assegaf, and Hindartan*  
 Page 313
- Mass Movement Hazardous Mapping in Piyungan District, Gunung Kidul Regency, Jogjakarta Special Province C18  
*T. R. Setiawan, A. R. Prabowo, R. Nurdin, and W. Wilopo*

#### D. Groundwater Contamination and Other Issues

- Properties of Alkaline Groundwater Seepage from a Tunnel and Its Neutralization by Dissolution of Atmospheric Carbon Dioxide IS  
*Toshifumi Igarashi, Takuya Aoki and Yoshihiro Iio*  
 Page 327

- Natural Analogue Studies for Long-term Safety Assessment of Radioactive Waste Disposal -Lessons learnt from Natural Processes and Role of Geologists, Geochemists, Geoengineers IS  
*M. Tsutomu Sato*  
Page 335
- Assesment of Urban Groundwater Contamination Case Study : Yogyakarta Urban Area-Indonesia D1  
*Heru Hendrayana and Doni Prakasa Eka Putra*  
Page 337
- The Evaluating Ability Of Rainwater Absorption Of Aquifers In Ho Chi Minh City When Artificial Recharge Is Applied D2  
*Nguyen Viet Ky and Ngo Duc Chan*  
Page 351
- Arsenic Mobility From Hydrothermally Altered Rock In Laboratory Column Experiments Without Atmospheric Oxygen And Carbon Dioxide D3  
*C.B. Tabelin and T. Igarashi*  
Page 361
- Using Mt3dms Model (A Package In Software Gms 3.1) For Solving Substance Dispersion Problem- A Case Study In Con Son Island D4  
*Dong Uyen Thanh and Ngo Duc Chan*  
Page 369
- REE And Level Of NORM Radioactivity Hazardous Associated With Tin Tailing (Amang) Processing In Kinta Valley, Malaysia D5  
*Kamar Shah Ariffin*  
Page 375
- Geoelectrical Resistivity, Hydrogeochemical and Soil Properties Analysis Methods for Groundwater Investigation in the Agriculture Area:A Case Study from Machang – Malaysia D6  
*Nur Islami, Samsudin Hj Taib, and Ismail Yusoff*  
Page 383
- A Kinetic Study on the Adsorption of Heavy Metal on a Natural Clayey Soil D7  
*Wawan Budianta*  
Page 395
- Saprolith Genesis As A Control For Surface Runoff In Jirak River Basin, Gunung Kidul, Yogyakarta D8  
*Srijono*  
Page 401
- Estimating The Dispersion And Retardation Factors Of Lead, Chromium And Iron In Coco-Peat Using A Non-Equilibrium Sorption Model D9  
*Maria Antonia Tanchuling, Augustus Resurreccion, and Dennis Ong*  
Page 411
- Environmental Impacts on Batu Hijau Porphyry Copper-Gold Deposit, Sumbawa Island, Indonesia D10  
*May Thwe Aye, A. Imai, N. Araki, S. Pramumijoyo, A. Idrus, L D Setijadji And Johan Arif*  
Page 413
- Assessment Of Groundwater Contamination Hazard: An Important Link Between Environmental Scientist And The Decision Makers D11  
*Doni Prakasa Eka Putra*  
Page 417

- Hydrogeochemistry of Arsenic and Manganese in Groundwater at Batu Hijau, Sumbawa, Indonesia D12  
*Wahyu Wilopo*  
 Page 425
- Hydrogeological Factors Control On Groundwater Contaminant Movement From Landfill Leachate D13  
*Keophousone phonhalath, D. Karmawati, H. Hendrayana, DPE Putra, and Kenji Jinno*  
 Page 431
- Water Infiltration through Capillary Barrier Models D14  
*I Gde Budi Indrawan and Harianto Rahardjo*  
 Page 439
- Need to Conserve The Miocene Limestone in Bayat Area Central Jawa, Indonesia D15  
*S. S. Surjono and M. Datun*  
 Page 447
- Evaluation of the Efficiency of a Subsurface Constructed Wetland using HYDRUS-2D: A Numerical D16  
 Simulation of Water, Heat and Multiple Solutes in a Variably Saturated Media  
*Resurreccion, Martin, Mauricio, and Tanchuling*  
 Page 455

### E. Disaster Mitigation and Policy

- LUSI Mitigation Implications of BPLS and Other Subsidence Measurements KS  
*Van S. Williams and Handoko T. Wibowo*  
 Page 461
- Beyond S&T in Disaster Preparedness: Other Dimensions of Disaster Reduction from Recent IS  
 Philippine Experience  
*Eddie L. Listanco and Trina G. Listanco*  
 Page 467
- A Proposal of New Method of Groundwater Investigation for Mountainous Geo-hazard Mitigation IS  
*Atsuo Takeuchi*  
 Page 473
- The Geo-Disaster Mitigation Measures in Myanmar E1  
*Kyaw Huun*  
 Page 481
- Multi-Hazard, Multi-Sector, Multi-Discipline Approach to Disaster Risk Management: Examples in E2  
 the Philippines  
*Benito M. Pacheco*  
 Page 491
- Disaster : Emergency, Preparedness And Planning E3  
*Poonam Bhatnagar*  
 Page 499
- Disaster Preparedness During Benign Periods: The 2009 Cold Front In Southern Philippines E4  
*Carla B. Dimalanta, Decibel V. Faustino-Eslava, Graciano P. Yumul Jr, Nathaniel T. Servando, Leo T. Armada  
 and Ryan Viado*  
 Page 503

- Redefining geohazardous zones in the light of changing climatic conditions E5  
*Decibel V. Faustino-Eslava, Carla B. Dimalanta and Graciano P. Yumul, Jr.*  
 Page 507
- The Geology of CO2 Storage in Indonesia: An Outlook E6  
*Hendra Amijaya and Ferian Anggara*  
 Page 511
- Application And Some Limitation Of Microgravity Survey In Site Investigation-A Case Study E7  
*Samsudin bin Hj Taib*  
 Page 515
- Geogenesis of Wonosari and Baturetno Basin in Southern Mountains of East Java E8  
*Salahuddin Husein and Srijono*  
 Page 521

## F. Vulcanology

- Caldera Activities in North Bali, Indonesia IS  
*Koichiro Watanabe, Takuji Yamanaka, Agung Harijoko, Saitra, and I Wayan Warmada*  
 Page 529
- A Preliminary Result Of Continuous Seismic And Deformation Monitoring At Lokon Volcano, North Sulawesi-Indonesia F1  
*Hendra Gunawan*  
 Page 537
- Preliminary Paleoseismological Analysis of Lembang Fault, West Java F2  
*Dwi Sulistyoningrum, Subagyo Pramumijoyo, and Eko Yulianto*  
 Page 549
- Mapping Of Characteristic Deformation Of Batur Volcano By Geodetics Monitoring Methods F3  
*Ony K Suganda, Hasanuddin Z. Abidin, A. Kusman, and Teguh P. Sidiq*  
 Page 557
- Potential Hazards Of Volcanic Material From The Eruption Of Merapi Volcano F4  
*Agung Harijoko, Tri Wulaningsih, F Anggara and Koichiro Watanabe*
