Preface Chairman of ICOOPChE	ii
Dean of Engineering Faculty University of Riau	iii
Program Rundown	iv
Table of Content	V

Code

Title

Product Technology

PT 01	Catalytic Conversion of Glucose to Levulinic Acid using Zeolite Immobilized Ionic Liquid as Catalyst	1
PT 02	Esterification of Renewable Levulinic Acid to Ethyl Levulinate over Modified HY Zeolite Catalyst	8
PT 05	Preliminary Study Of Processing Manganese Ore From Pringsewu Regency Lampung Province	19
PT-06	Optimization of High Temperature Silica Extraction from Palm Oil Mill Fly Ash in Pressurized Extractor	25

Water Treatment Technology

WTT 01	Adsorption of Humic Acid from Aqueous Solution onto Fe ₃ O ₄ Coated Carbon: Effect of Temperature	34
WTT 02	Gold Separation of Computer Circuit Board scraps (CCBs) by Sodium Metabisulfite as a Precipitant	41
WTT 03	Interlayer-Free Hybrid Organo-Silica Membranes Based TEOS and TEVS for Water Desalination	49
WTT 04	Particulate Emission Distribution Prediction from RSUD Arifin Ahmad Pekanbaru Incenerator Using Screenview	58
WTT 06	Synthesis Cellulose Acetate Membranes for Water Treatment in the Coastal Region	64
WTT-07	The Effect Of Initial Concentration And pH Of Wastewater In Ammonia Removal Using Membrane Contactor In Counter-Current Mode	69

Materials Technology and Nanotechnology		
MTN 02	Fabrication and Characterization of Hydroxy apatite Nano powder	77
MTN 03	Influence of The Calcination Temperature and Ratio of CaO/ HNO ₃ on The Synthesis of Precipitated Calcium Carbonate from Cockle Shell (<i>Anadaragrana</i>)	84
MTN 05	Analyses of Stress and Deformed Shape of Hammer Mill Hammers (HMHs) By Using Autodex Inventor	90
Renewable Energy		
RE 01	Experiences of The Operation Coal Gasification Unit in Tea Drying Plant	101
RE 04	Study of Performance of the Electric Generator Portable with NaCl Concentration Variation	107
RE 05	Superheated Steam Generation Development Using Fuel Biomassat Patchouli Oil Refining Process	114
RE 06	Reduction Cost Variable Home-Based Industry as Impact of Replacement the Traditional Stove by the Healthy Stove	120
RE-07	Synthesis Of Copper Oxide Thin Film Via Sol-Gel Dip-Coating Route For Spectrally Selective Absorber Material	125
Process Engineering and Bioprocess		
PEB 01	Growth Kinetics of Microorganism in Composting Process of Empty Fruit Bunch	134
PEB 02	Growth Kinetics Of Microorganisms On Fiber Solid Waste Composting Of Palm Oil Plant	143
PEB-03	Modeling Kinetic Growth Rate at Effect of Palm Oil Fronds and Zeolite (NaHCO ₃) Utility in Palm Oil Mill Effluent Process Treatment	153
PEB 04	The Production of Cellulase from <i>Bacillus sp.</i> BPPTCC-RK2 using OPEFB Substrate	173

Oleochemicals, Petroleum Industry and Its Derivates.

OPI 01	Biodiesel Production from Crude Palm Oil off-grade Over a ZnO Catalyst Presipitant Zinc Carbonate	180
OPI 03	Experience of Downhole Scale Squeeze Treatment to Solve CaCO ₃ Sclae in Zamrud Field, Indonesia	188
OPI 05	Characterization Of Solid Products From Ozonolysis Pretreatment of Oil Palm Fronds	207
OPI 06	Public Policy of Hydrocarbon Productivity Optimization for Oleo-and Petrochemical Industry: System Dynamics Approach (Case Study: Hydrocarbon Consumption in Riau Province, Indonesia)	217
OPI-08	A Charaxteristic of CO and SO ₂ Gases Production During A Combustion Process of In Situ Combustion (ISC) Method On Upgrading of Crude Oil	242
OPI-09	Evaluation of Phase Equilibrium and Molecular Interaction on Eutectic Formation of Betaine Monohydrate and Organic Acid Mixtures	258
