

Contents

Renewable Energy

	No. of Pages
Transmission of Energy to Waves by Instantaneous Ground Motion on a Beach <i>Arghya Bandyopadhyay</i> -----	1
Wave Power Absorption Capability of a Multi-Resonant Double Chamber Oscillating Water Column Device <i>R.Wilbert, V.Sundar and S.A.Sannasiraj</i> -----	7
Study on Wave-Energy Absorption by a Floating Body Equipped with Interior Pendulum-Type Rotating Cylinder <i>Katsuhiko Sakai, Saki Nishimatsu and Masashi Kashiwagi</i> -----	11
Hydrodynamic Aspects on Vulnerability Criteria for Surf-Riding of Ships <i>Yuto Ito, Naoya Umeda and Hisako Kubo</i> -----	17
Numerical Study of the Effect of Leading Edge Protuberances on Wing Hydrodynamic Performance <i>Van Trieu Nguyen and Jeng Horng Chen</i> -----	23
Applying the Body Force Method to the Simulation of Flow Around a Horizontal Axis Marine Current Turbine <i>I-Hui Tseng, Ching-Yeh Hsin, Wei-Che Wei, Hsun-Jen Cheng and Ya-Lin Tsai</i> -----	29
A New Proposal for the Design of TLP Type Offshore Wind Turbines <i>Midori Matsuura and Yasunori Nihei</i> -----	35

Offshore Mechanics and Hydrodynamics

Hydrodynamic Loading on Riser Support Structures <i>S. Nallayarasu and Lakshmi V.G</i> -----	41
Fundamentals of Vortex Induced Vibration Analysis of Marine Riser <i>M.Mobassher B.Tofa, Adi Maimun and Yasser M.Ahmed</i> -----	48
Nonlinear Response Prediction of Deep Water Floating Structure Using Artificial Neural Network <i>Md. Alhaz Uddin, Mohammed Jameel and Hashim Abdul Razak</i> -----	52
Wave Absorption by Twin Floating Bodies with External Dynamics Systems <i>Chutatsu Hirao, Munehiko Minoura and Yuki Miyazaki</i> -----	56
A study on Suitable Arrangement of Legs of a Semi-Submersible Type Offshore Wind Turbine in the Sea Around Japan <i>M.Takei and M.Murai</i> -----	60

Fracture of Scantling Support Structure of Gas Processing Module on FPSO
Mufti F.M, E.B. Djatmiko, Murdjito and Jaswar and Efi----- 64

Riser VIV Suppression Device Test
K.M. Yen, Allan Magee, Shankar Bhat, Ir. Dr. Mohamad Pauzi bin Abdul Ghani, Nasrudin bin Haji Ismail and Nor Bahrain Ahmad Zukni----- 72

Model Test of Hydrodynamic Interactions of Floating Structures in Regular Waves
Hassan Abyn, Adi Maimun, Jaswar, M. Rafiqul Islanm, Allan Magee, Behnam Bodaghi and Mohamad Pauzi----- 73

Advanced Ship Technology

Numerical Study of Hydrodynamic Response of a Floating Wave Energy Converter, Backward Bent Duct Buoy (BBDB)
Sung-Jae Kim and Weoncheol Koo----- 79

Improvement of Ship Geometry in Light of Ship Performance in Actual Sea
MuhdarTasrief and Masashi Kashiwagi----- 83

Effect of Asymmetrical Bridle Towline Configuration on Course Stability of a Towed Ship
Ahmad Fitriadhy, Hironori Yasukawa, Tomoyuki Yoneda and Koh Kho King----- 89

Design of a Body with Depth Control System for an Underwater Glider
Muhamad Fadli B. Ghani and Shahrum Shah B. Abdullah----- 96

Development of a New Energy-Saving Tanker with Non-Ballast Water and Podded Propulsors - Characteristic of Roll Motion and Defects of Ikeda's Prediction Method for Roll Damping –
Tatsuya Miyake, Yasunori Nihei and Yoshiho Ikeda----- 100

A Multi-Criteria Controller for Ship Autopilots
Le Thanh Tung----- 106

Production Process of Traditional Ships in Kepulauan Riau-Indonesia
Nofrizal, Zulkarnain, Jaswar, E.Prayetno, H. Saputra, Mufti F.M, Sanusi, A.Deah, Risandi.D.P, Surhan, Bayo and Yasser.M.A----- 110

Environment (Wind and Ocean)

Corrosion Behavior of Aluminium Alloy in Seawater at Two Different Sites off Kuala Terengganu Coast
Fakhratul Zulkifli, Mohammad Fadhli Ahmad, Khalid Samo and Wan Mohd Norsani Wan Nik----- 118

Fundamental Study on Thermal Insulation of Bulk Storage Tank of Hydrate for Natural Gas Transport
Masatoshi Sadano and Susumu Tanaka----- 122

Simulation of Oil Spill Trajectory In Johor, Malaysia Shoreline
Mohammad Rashidi bin Razali, Jaswar, Moh'd Zamani Bin Ahmad and Muhandes----- 126

Wind Tunnel Investigation into the Drag Characteristics of a Pair of Demihull Catamaran in Proximity <i>A. Jamaluddin, R. Hutauruk and I.K.A.P. Utama</i> -----	132
Identification of Key Ethnographic Factors and Their Influences on Traditional Malaysian Trawlers <i>Mohd. Ruskiman Abdullah Nawawi, Mohd Zamani Ahmad, Agoes Priyanto and Jaswar</i> -----	137
Method of Coupled Analysis of TLP Type Offshore Wind Turbines and Results of Tank Tests <i>Yasunori Nihei, Minoru Kozen and Kazuhiro Iijima</i> -----	143
Combating Strategies of Oil Spill in Malaysian Shoreline <i>Mohammad Rashidi bin Razali, Jaswar, Moh'd Zamani Bin Ahmad and Muhandes</i> -----	149
Development of skin-friction reduction paint using fine powder of PEO <i>Inwon Lee, Hyun Park, Ho Hwan Chun</i> -----	154
Mooring Analysis for Very Large Offshore Aquaculture Ocean Plantation Floating Structure <i>O. O. Sulaiman, A. Magee, Z. Bahrain, A.S.A.Kader, AdiMaimun, A.G. Pauzi, W.B. Wan Nick and K. Othman</i> -----	158
 <u>Sloshing Dynamics and Design</u>	
Study on the Prediction of Sloshing Severity <i>Miaozi Zheng, Yonghwan Kim, Sang-Yeob Kim and Ying Gou</i> -----	164
Validation of a Motion Simulation Technique in Various Regular Oblique Wave Conditions for a Container Ship <i>Hiromichi Akimoto, Md. Mashiur Rahaman and Kenji Tanaka</i> -----	170
Numerical Computations of Strongly Nonlinear Slamming and Resultant Wave Loads <i>Sunbum Kim and Masashi Kashiwagi</i> -----	175
Particle Image Velocimetry Measurement on the Oscillating Characteristics of Sloshing-induced Internal Flow Fields <i>Yangjun Ahn, Jae-Han Kim, Sang-Yeob Kim, Kyong-Hwan Kim and Yongwhan Kim</i> -----	179
Vortex-Induced Vibration of a 2-D Cylinder by Numerical Simulation <i>M.Mobassher B.Tofa, Adi Maimun and Yasser M.Ahmed</i> -----	185
Hydrodynamic Interaction between Two Ships Advancing in Close Proximity in Waves <i>Hafiz Mahyuddin and Faizul Amri Adnan</i> -----	191
Practical Issues on the Implementation of Ballast Free System <i>Norul Hidayah Kadir, Hairil Afif Hamid, Mohd Zamani Ahmad, Ab Saman Abd Kader, Adi Maimun Abd Malek, Agoes Priyanto and Mohd Afifi Abdul Mukti</i> -----	200
Optimization of Rounded-Shape Floating LNG Production and Storage Capacities Using Simulation Modeling (Part I) <i>Sanusi, Jaswar and Azaniza Wati</i> -----	206
Methodology for LNG Terminals (FLNG, FSRU & LNGRV) <i>Louis Diebold, Thomas Gazzola and Eric Baudin</i> -----	212

Coastal Hydrodynamics

Phase Resolved and Averaged Wave Simulations in Jakarta Harbour <i>Didit Adytia, Meirita Ramdhani and E. van Groesen</i> -----	218
Study On Mobile Floating Harbor Concept <i>K.U. Tiau, Jaswar, Hassan Abyn and C.L. Siow</i> -----	224
Justification of Efficiency of Application and Manufacturing Techniques of Rowing Screws with Long Wavy Blades <i>Aleksandra Vladimirovna Slavgorodskaya</i> -----	229
Hydrodynamic Settlement of the Core and Foundation in Earth Dam During Earthquake <i>Behrouz Gordan and Azlan Bin Adnan</i> -----	233
Research of Dynamic Characteristics of Airfoil Boat on the Takeoff <i>Michael Latukhin, Eugeny Kirilyuk, Sergey Antonenko and Valery Novikov</i> -----	238
Conceptual Designs of Fishing Vessels for the Storm and Ice Conditions on Seas of Sakhalin and Kurily Islands <i>Vasily N. Khramushin</i> -----	242
Numerical Simulation of Free Surface Effect on Wave Interference of Catamaran with Fin Stabilizer <i>A. Ali, A. Maimun A. Malik and Y. M. Ahmed</i> -----	248
Environmental parameters and their influence of marine diatoms of Karaikal coast, Southeast coast of India <i>Natanamurugaraj Govindan, Mashitah M. Yusoff and Jeyachandran Savarimuthu</i> -----	254
Planning and Scheduling of FPSO E-House Module Fabrication Model <i>Moh Hafidz Effendy and Jaswar</i> -----	259

CFD In Hydrodynamics

Investigation of Nonlinear Effects on Ship-Generated Unsteady Waves and Added Resistance Using CFD Simulations <i>Daisuke Nakagawa, Kenta Yamamoto and Masashi Kashiwagi</i> -----	263
CFD Simulations of the Effects of Fouling and Antifouling <i>Yee Shin Khor and Qing Xiao</i> -----	269
Fast Ocean-Going Hospital Ship: The Algorithm Of Concept Designing and Some Options <i>Victor A. Dubrovsky</i> -----	277
Numerical Simulation on Strongly Nonlinear Wave-Body Interaction Problems by Using a FV-Based Cartesian-Grid Method <i>Kyung-Kyu Yang, Jae-Hoon Lee, Bo-Woo Nam and Yonghwan Kim</i> -----	283
A Study on Application of a Commercial CFD Code to Reduce Wave Resistance Acting on a Non Ballast Tanker (Part 2) <i>Ngo Van He, Yasunori Nihei and Yoshiho Ikeda</i> -----	290

Viscous Flow Computation Around the Wigley Hull with the Maneuvering Motion Using the Inertial Coordinate System on the Non-Inertial Grids <i>Yan Naing Win and Yasuyuki. Toda</i> -----	296
Probabilistic Sea-State Model Based on the Poisson Process and Its Application to Ship Performance Estimation <i>Takayuki Hamada and Munehiko Minoura</i> -----	302
Composite Indirect Rankine Panel Method for a Symmetric Ship Hull <i>Thang Gia Nguyen and Cap Sy Truong</i> -----	308
2-D Simulations of Water Flooding by a CIP-Based Method <i>Yui Shimizu and Hirota Hashimoto</i> -----	315
Aerodynamic Behavior of a Compound Wing Configuration in Ground Effect <i>Saeed Jamei, Ad. Maimun, Shuhaim. Mansor, Agoe. Priyanto and No. Azwadi</i> -----	321
Validation Study for Savonius Vertical Axis Marine Current Turbine Using CFD Simulation <i>Omar Yaakob, Yasser M. Ahmed and M. Arif Ismail</i> -----	327

Seakeeping and Manoeuvring

Pure Loss of Stability in Astern Seas -Is it Really Pure?- <i>Hisako Kubo, Naoya Umeda, Keisuke Yamane and Akihiko Matsuda</i> -----	333
Model Experimental Study of a Towed Ship's Motion <i>U.I. Zan, H. Yasukawa, K.K. Koh and A. Fitriadhy</i> -----	339
Assessment of Ship-Bank Interactions on LNG Tanker in Shallow Water <i>Maimun A., Y. Mohamed, Priyanto A., Y. S. Ang and M. Nakisa</i> -----	345
Motion Characteristics of FLNG Systems Under the Effect of Drift Motions of Two Floating Bodies <i>Kohei Sugata, Yasunori Nihei and Yoshiho Ikeda</i> -----	349
Examining New Generation Intact Stability Criteria on Parametric Rolling <i>Fuka Yoshiyama, Naoya Umeda and Takumi Kubo</i> -----	355
Experimental Study On Seakeeping Performance of a Catamaran with Asymmetric Demi-Hulls <i>S. Ikezoe, N. Hirata and H. Yasukawa</i> -----	361
Manoeuvring of Podded Propulsion LNG Carrier <i>J.N Loh, Jaswar, Agustin Dwi Sumiwi and Munirah</i> -----	367
Effect of Stern Appendages on Course Stability of a High Speed Vessel <i>Kunitake Y., Sano M., Hirata N. and Yasukawa H.</i> -----	373
A Design of Autonomous Underwater Vehicle Model for Estimation of Underwater Manoeuvring Coefficients <i>Le Thanh Tung, Le Quang and Nguyen Dong</i> -----	379

Experimental Study of a Tanker Ship Squat in Shallow Water <i>Mohammadreza Fathi Kazerooni and Mohammad Saeed Seif</i> -----	385
Study on Stability of Floating Liquefied Natural Gas (LNG) <i>M.Fikri, Jaswar, Mufti F.M, Agustin, A.Maimun, Sanusi, and C.L.Siow</i> -----	390
Bow Dive Analysis of Semi-Swath Ship in Following Wave and Fin Stabilizer Effect <i>Rahimuddin, Adi Maimun Abdul Malik and Muhamad Pauzi Abdul Ghani</i> -----	396

Ship Propulsion and Propeller

Phase-Averaged 3D-PIV Flow Field Measurement for KVLCC2 Propeller Plane in Waves <i>Ho Kim, Yoshiki Hayashi, Sho Oshita, Ryuichi Inoue, Keisuke Akamatsu and Yasuyuki Tado</i> -----	403
Numerical Simulation of Propeller Hydrodynamic Performance of LNG Carrier in Open Water Using Fluent <i>A. Maimun, M. Nakisa, Najmi, Y. Mohamed, Y.S.Ang, A. Priyanto, Jaswar and F. Behrouzi</i> -----	407
A Study on Performance of Cascade of Wing Sails for Sail-Equipped Vessels Considering Their Aerodynamic Interaction <i>Qiao Li, Yasunori NIHEI and Yoshiho Ikeda</i> -----	413
On the Service Performance of LNG Carriers in Actual Seas <i>M Azuwan Ahmad and Faizul Amri Adnan</i> -----	419
The Influence of the Propeller Loading Distributions to the Propulsive Efficiency <i>Wei-Che Wei, Ching-Yeh Hsin, Po-Fan Chen, Jyh-Yih Li, Sheng-Ann Shieh and I-Chung Chien</i> -----	431
Numerical Simulation of Self-Propulsion Model Tests for a Container Ship <i>Tsung-Yueh Lin, Yun-Shan Wang, Po-Wen Wang and Jen-Shiang Kouh</i> -----	437
An Investigation on the Tandem Propeller with High Aspect Ratio Blade for Energy Saving <i>Yih-Wei Tzeng</i> -----	443
Research of Trans-Velocity Propellers on Hydrodynamic and Structure Fatigue Analysis in Inclined Shaft Conditions <i>Shang-Sheng Chin, Jeng-Li Hwang, Kuan-Kai Chang, Jin-Ching Tu and Ya-Lin Tsai</i> -----	447
Hydrodynamics Estimation based on Analytical Method for A Hybrid-Driven Underwater Glider <i>Khalid Isa, M. R. Arshad and Syafizal Ishak</i> -----	453
Field Measurement of Fishing Boats Generated Waves <i>Dedy Triawan Suprayogi, Faizul Amri Adnan, Omar Yaakob, Mohamad Pauzi A. Ghani and Usman Ullah Sheikh Izzat Ullah Sheikh</i> -----	459
A Study on Simplified BHP Estimation Method for Planning Craft with Outboard Engine <i>Hiroyuki Katayama and Toru Katayama</i> -----	465

Risk and Fatigue

A Study on Influence of Elasticity of Materials to Impact Load <i>Jae-Young Shin, Chang-Woo Park, Sun-Hong Kwon, Sang-Beom Lee and Jang-Young Chung</i> -----	469
Response of Jacket Structure Due To Ship Collision <i>Agustin Dwi Sumiwi, Handayanu, Jaswar and Efi</i> -----	473
Response Investigation of Mooring Systems for Deepwater Semi-Submersible Platform with Different Component of Mooring Lines <i>Budi Setyo Prasodjo</i> -----	482
The Device of Compensation of Bending & Torsion Fluctuations for the Rowing Screw <i>Slavgorodski Vladimir Mihailovich and Kitaev Maksim Vladimirovich</i> -----	488
Quality Issues in Traditional Ship Production in Kepulauan Riau-Indonesia <i>E.Prayetno, Jaswar, H. Saputra, Mufti F.M, Sanusi, A.Deah, Risandi.D.P, Nofrizal, Zulkarnain, Surhan and Bayo</i> ----	491
Safety Issues in Production of Traditional Ship in Kepulauan Riau-Indonesia <i>A.Deah, Jaswar, E.Prayetno, H. Saputra, Mufti F.M, Sanusi, Risandi.D.P, Nofrizal, Zulkarnain, Surhan and Bayo</i> ----	496

Ship Resistances and Performances

Experimental Study on Ship-Generated Unsteady Waves and Added Resistance <i>Kenta Yamamoto, Tomoki Wakabayashi and Masashi Kashiwagi</i> -----	501
Response Comparison of Floating Platforms for Wind Turbines Under Wind and Wave Loads <i>Misako Kawai, Kazuhiro Iijima and Masahiko Fujikubo</i> -----	507
Take Off Resistance Estimation of Wing In Ground Effect (WIG) Craft <i>M.Mobassher B.Tofa, Adi Maimun, Yasser M.Ahmed and S jamei</i> -----	513
Energy Efficiency Improvement by the Use of a Series Hybrid Propulsion System Applied to a Bulk Carrier in Head Waves <i>Ryoma Kushida, Naoya Umeda, Hidenori Sekiguchi and Yasunori Matsunaga</i> -----	520
Added Resistance acting a New Large Non Ballast-Water Ship Due to Waves <i>Hiromu Funakoshi, Seijirou Miyake, Satowa Ibata and Yoshiho Ikeda</i> -----	526
Large eddy simulation of flow around an asymmetric wavy cylinder <i>Jae Hwan Jung, Hyun Sik Yoon and Ho Hwan Chun</i> -----	530
Study on Powering of Podded Propulsion VLCC <i>Jaswar, A.Amin, Agustin, A.Maimun, Munirah, Mufti F.M, Jonathan and C.L.Siow</i> -----	536
Study on Comparison Performance of Various Full-Spade Rudder for a Container ship (KCS) <i>W.J. Lee, M.C. Kim, W.J. Moon, H.J. Kang</i> -----	542

New Concept Development

Study on the Braking Performance of a Biomimetic Squid-Like Robot with Two Undulating Side Fins <i>Md. Mahbubar Rahman, Sinpei Sugimori, Hiroshi Miki, Risa Yamamoto, Yogo Sanada and Yasuyuki Toda</i> -----	547
Preliminary Design of AUV(Autonomous Underwater Vehicle) with Higher Resolution Underwater Camera for Marine Exploration <i>Zulzamri B. Salleh, Muhamad Fadli B. Ghani and Mohd Amin Hakim B. Ramli</i> -----	553
The Concept of Hybrid Ballast Free System <i>Hairil Afif Hamid, Norul Hidayah Kadir, Mohd Zamani Ahmad, Mohd Afifi Abdul Mukti, Adi Maimun Abd Malek and Agoes Priyanto</i> -----	559
About designing of Some Multipurpose Small-Sized Autonomous Underwater Vehicles <i>V.E. Gornak, A.A. Kushnerik, S.V. Maltseva, A.Ph. Scherbatyuk and S.V. Antonenko</i> -----	565
Design Issues in Traditional Shipbuilding Process <i>Mufti F.M, Jaswar, E.Prayetno, H. Saputra A.Deah, Sanusi, Risandi.D.P, Surhan, Bayo, Nofrizal and Zulkarnain</i> -----	571
Critical Path Analysis of Traditional Ship Production in Kepulauan Riau-Indonesia <i>H. Saputra, Jaswar, Nofrizal, Zulkarnain, E.Prayetno, Mufti F.M, Sanusi, A.Deah, Risandi.D.P, Surhan and Bayo</i> ----	577
Effect of Mesh Number on Accuracy of Semi Submersible Motion Prediction <i>Hassan Abyn, Adi Maimun, M. Rafiqul Islanm, Allan Magee, Jaswar, Behnam Bodaghi and Mohamad Pauzi</i> -----	582
Delivery Issues in Malaysian Traditional Ship Production <i>Surhan Jamil Haron, Jaswar, Nofrizal, and Zulkarnain</i> -----	588
Planning of Traditional Ship Production in Bintan-Indonesian <i>Risandi.D.P, Jaswar, Mufti F.M, E.Prayetno, H. Saputra A.Deah, Sanusi, Surhan, Bay, Nofrizal and Zulkarnain</i> -----	592
